# Migration Monitoring System

Published On: 22-10-2022

**Why is in news?** India's first 'Migration Monitoring System' inaugurated in Mumbai

The country's first 'Migration Monitoring System', which provides updated information on **migrant pregnant women, lactating mothers and children** instantly on a single system, was inaugurated in Mumbai.

The **Department of Women and Child Development** has developed the **first Maharashtra Migration Tracking System** in the country.

The department created a **website-based Migration Tracking System (MTS)** to track the movements of vulnerable seasonal migrant beneficiaries through individual unique identification numbers.

Due to this system, the information on seasonal migrant women and children will be available immediately, which will make it **easier for the beneficiaries to get the benefits of the government schemes**.

The **website is <https://mahamts.in/login>**, and the **MahaMTS App** is available in Google Play Store.

It is possible to easily fill the information to department officials, Anganwadi workers and supervisors.

MahaMTS app and <https://mahamts.in/login> information about food distribution, vaccination, Amrit diet scheme, health check-up, and others can be implemented effectively.

The reasons for seasonal migration of native addresses of pregnant women, lactating women, children aged zero to three years, children aged three to six years and children aged 6-18 years can be obtained.
